# Goutam Singh

Web Engineer | Frontend developer  
Bengaluru, Karnataka, India

## Summary

Front end developer with strong can-do-attitude.

I am able to bridge IT and business needs and I have several times demonstrated that I am able to turn IT projects into becoming truly agile.

I like to transform visual designs into high performance web and mobile application. Working with modern technologies such as Html5, Css3, BEM, oocss, Less, sass/scss, JavaScript, Typescript, Angular 8, Jasmine/karma(unit testing), UnderscoreJS, Lodash, JQuery, Ionic 3/4, Restful API(Integration), Responsive Web Design, BOOTSTRAP 3/4, Material UI designs, nodeJS, mongoDB, expressJS, ReactJS

Core skills include:

- Working with product management to design and develop products and rich user experience.
- Collaborate with the key stakeholder to conceptualize new products and improve existing solutions.
- Creating UI wireframes, specifications, mock-ups and prototypes
- Web application - W3C standards, web accessibility
- Ability to lead programming efforts for multiple software development projects (product features, platform and framework extensions)
- Understanding of Scrum/Agile development methodologies - Test Driven Development, automated deployments, continuous integration
- Expertise in estimating, planning and refactoring software development programs, projects and tasks
- Experience with complex bug verification, testing, program support and fixing website's cross-browser issue

---

## Experience

## Schneider Electric

### Module Lead

August 2019 - Present (10 months)

Bengaluru, Karnataka

Gathering client and product owner requirements.

Preparing product specification and technical specification.

Documenting all the UI architecture along with High level design(HLD), Low level design(LLD) and Detailed Level Design(DLD).
